## Talent International

Self-service password reset with OneLogin

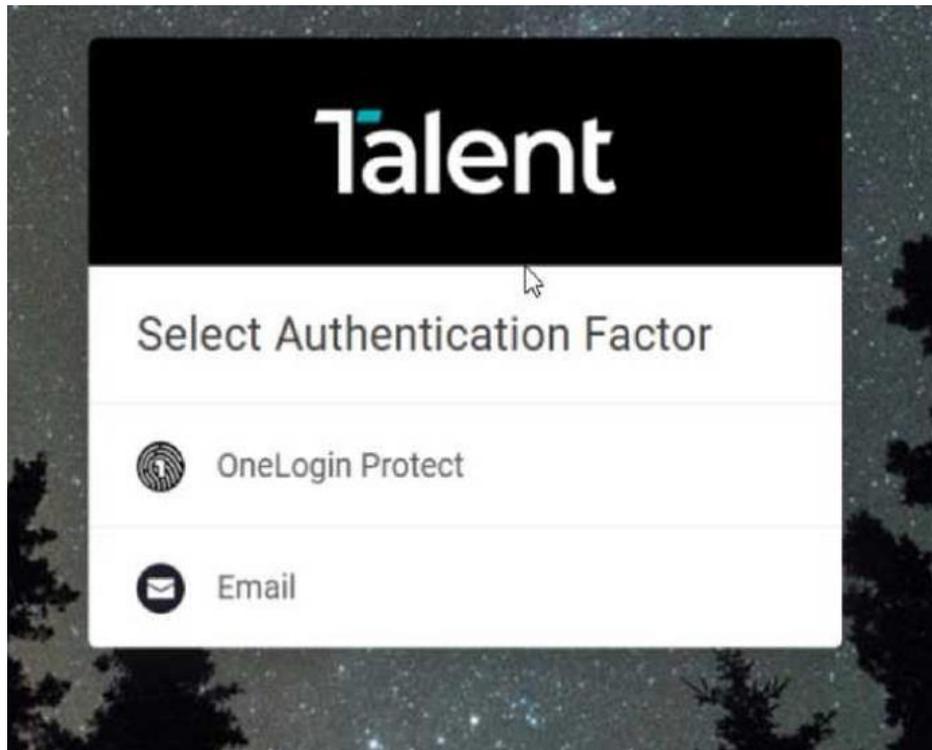

1. Go to <https://talentinternational.onelogin.com> on your personal laptop/phone and press Forgot Password

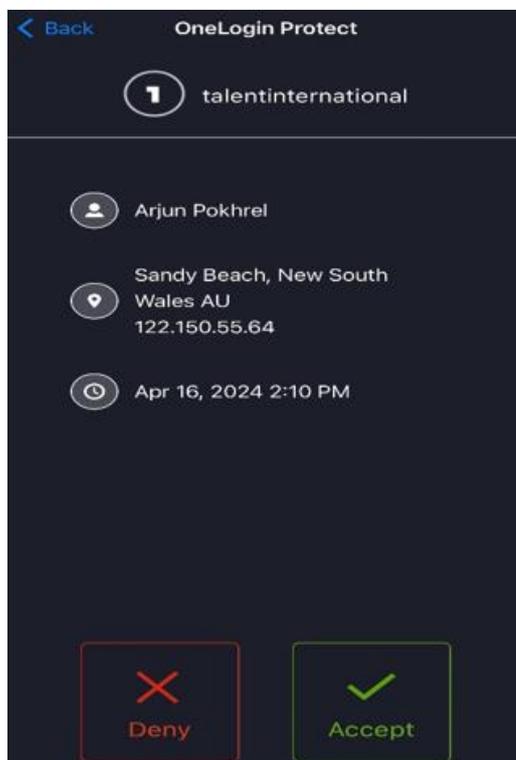

2. It will ask for your username so please enter your email address in the Username field and press **Continue**

3. You will be prompted to select authentication factor to verify your identity so please select OneLogin Protect.

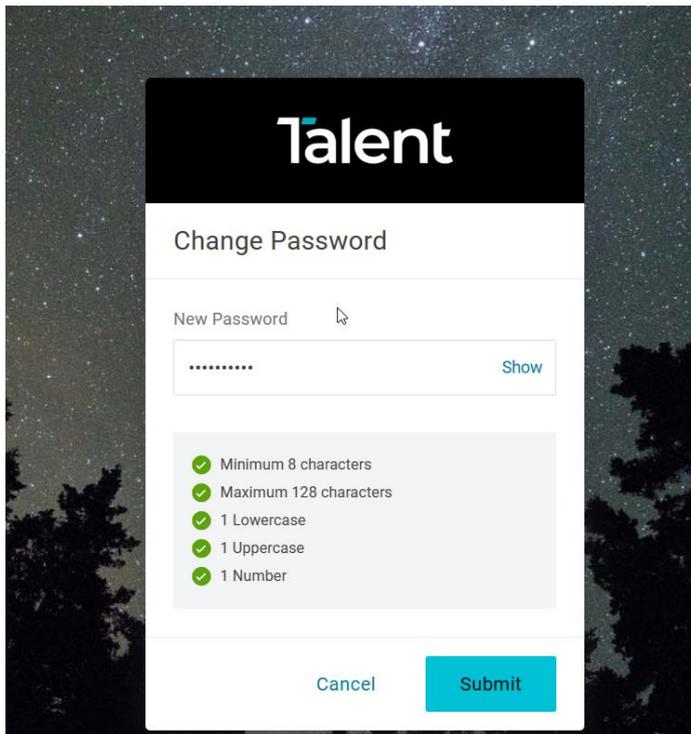

4. You will get a push notification on your OneLogin Protect application on your phone so press **Accept**, and it will let you change your password.

5. You will be prompted to set a new password. The new password must be more than characters and contain at least 1 uppercase letter, one lowercase letter, and one number. Once you enter new password, press **Submit**, and your password will be reset.

**A strong password is essential for protecting your sensitive information and preventing unauthorized access, so we recommend using reliable password generators to create strong, random password. Here are a couple of trusted options <https://www.useapassphrase.com> or <https://www.dinopass.com>.**

The image shows a mobile application interface for changing a password. At the top, the word "Talent" is displayed in white on a black background. Below this, the title "Change Password" is centered. A text input field labeled "New Password" contains a series of dots, with a "Show" link to its right. Below the input field, a list of requirements is shown with green checkmarks: "Minimum 8 characters", "Maximum 128 characters", "1 Lowercase", "1 Uppercase", and "1 Number". At the bottom of the form, there are two buttons: "Cancel" and "Submit".
